

OWASP Cyber Defense Matrix Assessment

SAYERS OWASP CYBER DEFENSE MATRIX ASSESSMENT IS DESIGNED TO PROVIDE OUR CLIENTS A HIGH LEVEL, OBJECTIVE LOOK INTO THEIR SECURITY PROGRAM AND POSTURE.

Through an iterative series of information collection exercises, Sayers subject matter experts will review, categorize, and quantify the technology and process components that make up a given organization's ISMS. The end-result is a deliverable a Client can then review and use to perform a further, targeted analysis of the security program, build business cases, or observe biases in past security spends.

OWASP CYBER DEFENSE FEATURES:

- ▶ Analyzes people, process, and/or technologies across two (or more) dimensions
- ▶ Quantifies coverage, configuration, and efficacy of the given solution set
- ▶ Built utilizing well-known industry projects and frameworks
- ▶ Normalizes useful and relevant terminology rather than industry jargon
- ▶ Low-to-zero cost
- ▶ Delivered by highly experienced industry experts
